

MIMICO CREEK

Noel Harding

Dundas Street West & Islington Avenue Public Art Competition

"The Selection Panel congratulates Noel Harding on his outstanding concept proposal, Mimico Creek, which we feel will help the community to interpret the past while opening a window to the future. Harding's proposal connects with the site's natural surroundings and the community. Mimico Creek will enhance the southwest triangle at the intersection of Dundas Street West and Islington Avenue, invite the curious, provide multiple layers for engagement and socially energize the site by creating a 'meeting place'."
